DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/2/04 has been entered. Claims 1-22 remain pending in this application. The amendments to the specification, the abstract, the claims and applicants' Remarks/Arguments have overcome the rejections recited in the final Office action mailed 3/31/04.

Information Disclosure Statement

2. The examiner has considered the references submitted with the information disclosure statement (IDS) received 7/6/04 (see the attached form PTO-1449).

Allowable Subject Matter

3. Claims 1-22 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a communication device comprising a key-input section having a functional softkey that is controllable and assignable by a user. The only independent claim 1 identifies the uniquely distinct features: "a non-volatile memory section for storing as an operational procedure a series of said key-input information combinations, each

...selected by the user for fixation, ...; and a control section for executing said operational procedure by...as a sequence of combinations of keys “ (see claim 1, lines 7-17). The closest prior art, the Croy et al invention (U.S. Patent No. 6,476,825) fails to teach or suggest the amended claimed invention as particularly pointed out by the applicant, see pages 12-16 of the above-identified amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Response to Arguments

5. Applicant's arguments, see pages 12-16, filed 8/2/04, with respect to the amended claims 1-22 have been fully considered and are persuasive. The rejection of claims 1-22 has been withdrawn as indicated above.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They are U.S. Patents Nos.: 6,625,649 and 6,618,039 that teach communication systems having programmable keys.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HENRY N TRAN whose telephone number is 703-308-8410. The examiner can normally be reached on M-F 8:00-4:30.
